

# S.A.M.S. - SHALLOW ANGLE MINING SYSTEM

## TYPICAL OUTLINE LAYOUT

### SECTION VIEW - TYPICAL CUT-OUT LAYOUT

- ◆ Distant drawpoint for added safety
- ◆ Allows accumulation of up to 3 rounds of muck before the need to muck out the face
- ◆ Breakthrough on upper level is optional. Required only if ore profile is prolonged
- ◆ Stope could be backfilled with or without upper level breakthrough (with paste)
